Hello. I have been asked to add this to correspondence for the other councilors to consider. Thanks, DG

Hi Dana,

I just watched the 2/12/24 workshop meeting video thinking it would fill in the blanks...

**The online questionnaire asks about an option of moving the fire station north of the city, on donated land.....??? Where is this and who donated? Same property as was considered for the last proposal?**

I hope this option doesn't include property that has springs running under it, (Like the High School) or some other structurally challenging issue.

Thanks,
